Dear Friend:

I promised to send my subscription and find check enclosed herein. Also an article about Slavery in America today is included. Also I am having mailed to you a book entitled "Strangers in Our Fields." The information contained in this is true to best of my knowledge and experience and I have myself personally witnessed some things even worse than described in this book and I have every reason to back up this book all the way. If I had written this myself I would have had an inclination to title it "Exploitation in Extremes". These are the Rights that the Civil Rights Program is Not interested in.

Slavery In America Today

You may someday attend a movie and it may show some Slave Labor Camps supposed to be in Siberia under Communist Control. It is both possible and probable that these pictures were made right here in California because many of such Barracks and filthy type places do exist. They are the homes for domestic farm workers of both Alien and Immigrant American workers. Many of a chicken type building has been built by Government itself. While others are shacks of the most run down description. Larger Corporation Farms called Ranches in California have barracks type buildings usually secured from War Surplus Army Camps, torn down and moved to farm location in a hurry up, thrown together condition. And there is some complaint that Farm Workers in America do not want to live in or under such conditions and refuse this and for this reason it is necessary to import thousands of Aliens into America each year. While American domestic workers of all races almost starve. And Southern Congressmen and Senators back all the way this Alien Importation of Workers.

Various means are found to cheat these uneducated people and Labor Contractors sometimes make small fortunes, operating Labor Camps. They do not beat these people with whips as in days of old. They have a more modern way now to force them into line. They simply put a can of gasoline in a truck and wreck it and burn them to death. And many bodies are found in canals etc. And threats of turning them over to Immigration Officers whom they fear will send them to a Prison so that they can not ever see their loved ones again back in Mexico.

There are rumors that in some cases they are fed patties made from Dog Food. Many get sick and die. Usually coroner lists death from natural causes but no autopsy is made to determine just how contaminated their food really was. Beer and wine cost about double regular store prices and they are charged with every imaginable service which is deducted from their checks, sometimes receiving nothing. Once, a few years ago while going from work, an alien came up the street and asked my companion who was an American of Spanish descent and who could speak Spanish, about a Five Dollar bill he was showing him. My companion later informed me that it was supposed to have been a twenty dollar bill and whoever he had worked for had given him this instead and he did not know about American money.

Recruitment of these workers takes place in Deep South Mexico and news stories have claimed these workers are better workers than those near U. S. borders. They do not tell that really they are more ignorant and more easily pushed around while Mexican workers near borders are smarter and know more about things and cannot be

shoved around so easily. For many these workers came in illegally but now its been legalized with the help of Southern Senators and Congressmen and Department of Labor. With Rules and Regulations etc. which must be written in Greek because there is little compliance to them. Many of these thousands of workers desert and go into other employment and it would be a staggering job to check into the thousands and thousands of aliens now living in America permanently as to whether they are actually citizens.

Now there is no use writing your Congressman or Senator or U. S. Labor Dept. about this because they already know about it. In fact thy are the ones who sponsor and make it possible. Hearings are held, but in a hotel room in Los Angeles by a Committee, the last headed by E. C. Gathings of Arkansas who seemed unconcerned and uninterested in making any investigation out where these aliens actually work or the squalid living conditions of those whom this Alien Labor Imports displace in Employment.

I asked Congressman Gathings to bring his Committee and go on a tour where they could see and talk directly with these people, which he declined. They instead were more interested in hearing wealthy ranchers testify about what a serious labor shortage they encounter and how impossible it was to hire American domestic workers to do this type of labor. It was not brought out that it was almost impossible to secure any American domestic workers who would live in barns and leaky tents and leave their families and move into one of the Hell-Holes called a Labor Camp which would take so much of their checks for board and other graft pone would be left to support their families.

Gathings and his Committee were not interested in this nor was the United States Department of Labor. Instead they are far more interested in making one race go to another's school whether it wants to or not and in displacing American domestic workers with alien slave labor so as to drive down American standards of living for these people regardless of race. Every American should read this book "Strangers in Our Fields" by Ernesto Galartza, 1011 Franquette Street, San Jose, California, and while reading it remember that America also has stangers that are working also in Washington, D. C. and all over this Nation to undermine The American System which with all its faults has given more things to more people than any other on this planet earth, but which is fast becoming a Slave Labor Nation where no rights of any kind exist for any one.

Yet these aliens are segregated and kept in camps like any convict camp. Their children are left in Mexico and they also are sent back when cotton is all picked and harvests completed. At least they have learned about Free America as it really is and can go back home and tell their neighbors and friends all about it. They have gone so deep into Mexico there is now some talk about importing workers from Far-East Islands which now is claimed are even more efficient than Mexican Nationals. Really more ignorant and easier to push around.

Still California newspapers are full of stories about the squalor and misery of living conditions of Southern Colored People and how they are treated. But the N.A.A.C.P. does not undertake to secure Southern Colored People for all this harvest and agricultural work in California. Why??? Because they know. You are also Americans and would not put up with such horrible conditions which your Benevolent Civil-Rights minded Administration encourages and supports wholeheartedly, and receive the co-operation of Southern Democrat Senators and Congressmen in this Undermine Americans Program. This

DON'T TRUST LEADERS

Dear Editor:

Please find enclosed a check for two dollars to pay for 20 copies of The Community Citizen, Sept. 25, 1958 issue, another great one. I am also enclosing a copy of what President Lincoln told the people Feb. 11, 1861. And we the people must obey President Lincoln's warning now, to save our Union and Liberties.

With best wishes,
A. Z. Jones

The people must rise. Lincoln warned us not to trust leaders, Feb. 11, 1861.

When the people rise enmasse in behalf of the Union and the liberties of this country, Truly may it be said, "The Gates of Hell cannot prevail against them." In all trying positions in which I shall be placed, my reliance will be upon you and the people of the United States; and I wish you to remember now and forever, that it is your business, and not mine, that if the Union of these States and the Liberties of this people shall be lost, it is but little to any one man of fifty-year years of age, but a great deal to thirty millions of people who inhabit these United States, and to their posterity in all coming time. It is your business to rise up and preserve the Union and liberty for yourselves, and not for me. I appeal to you again to constantly bear in mind, that not with politicians, not with Presidents, not with office-seekers, but with you is the question: Shall the Union and shall the Liberties of this country be preserved to the latest generation. Womens Voice, Oct. 1956. How right President Lincoln was. He saved our Union, and our liberties at that time. And we the people, with God's help, will save them now.

is Civil-Rights California Style.

They do not desire colored people to come out to do this work nor whites either for that matter. They can read and write and desire to live like humans, not animals. The poor Mexican also desires to be regarded as a human too and will eventually demand his rights. He is learning the truth and the truth shall make him free.

Americans have a Foreign Aid Program which we all support with our tax dollars, supposedly designed to strengthen this Nation with Allies for common defense. And also to lift up the living standards of others. Mexico, it seems, our next door neighbor, is getting instead an exploitation program designed to exploit human energy and create Hatred for America or U. S. A.

Labor Unions are taking some small interest in this, but very small. Domestic workers make little protest, mostly because so many are uneducated and feel there is nothing they can do. One woman who wrote a letter in Stockton Paper in protest of this alien labor taking her husband's job, received threats, one of which I have in my possession which ended with watch out Communism is going to get you or something like that. The letter was unsigned and from Pomona, California. This Slave Labor Program should show people of All Races what is happening in the United States and how this Nation is being invaded. A high Government Official when we were conferring about a different subject entirely where Labor was involved, remarked that this was almost as bad as the Alien Labor Deal which definitely shows they also realize what a shameful condition exists. The last session of Congress with a standing vote completely and unanimously approved this program, both Democrat and Republican alike. I am going to leave it to the reader now to determine which Political

TEXAN WRITES EDITOR JONES

Anthony, Texas, 9-24-58

Dear Mr. Jones, Editor
Community Citizen

There is more racial discord right under the nose of Sir Ike, one twelfth American, than in the entire South, even after spending millions of tax dollars fomenting fury in the South. In fact, there is more racial discord in Washington, D. C., N. Y., Philadelphia, and Chicago than there has been in the entire South in twenty years preceding the invasion of Little Rock.

If anyone wishes to know the source of all its trouble let them get the 1958 year book of the American Jewish Committee and read, for right there they will find who is responsible for the Urban League and the NAACP and find proof that the great majority of Southern negroes want no part in the hell raising that is promoted from New York City.

There should be Grand Jury investigations in every community to disclose who is putting up the cash to create trouble and take action against them for conspiring to stir up animosities in peaceful relationships that have existed thru long years. There was none of it until certain anti-Americans put up the money to promote it.

The very same world group of destroyers are the ones who promoted the Mental Health racket, the un-American UNESCO, and the attempt to deny to our people their constitutional right to keep and bear arms. If enough discord can be created down there to afford an excuse for clamping down military dictatorship there will be hell to pay.

On June 22, 1955 the AP disclosed that such a dictatorship had been worked out in detail and was being held ready to clamp down the moment any American city was bombed. That would be as criminally lawless as anything ever charged to any criminal gang in history for no such power was ever delegated to our federal union.

If that excuse can be found all Americans should understand we will be under the same world group that inflicted Bolshevism on Russia, Hungary, China and other nations. Harry Hopkins said that under it "We will conscript men, women, children and all property and that all would be housed without regard to race, color or creed."

No more certain or more lawless plot could have been devised by the evil one himself. The Southland must use utmost care to prevent those sinister forces seeking total world power from any excuse to putting that criminal plot into operation.

The stability of our Southern people, both white and black, should be able to prevent the lawless element in each from doing that. No better system of preventing that can be offered than Grand Jury investigations to expose those spending large sums to promote trouble and prosecuting them to the limit of the law.

A Reader

Party is really interested in Human Rights.

Our only hope is in God Almighty and Jesus Christ our Lord and truth about all things. There is no hope whatsoever in any political organization today because both have accepted Satan's religion and offer many promises but give you this slave labor deal. The Rights they are most interested in is Rights of Exploitation of any Race which will submit to it regardless of color of skin or nationality origin. Know the truth and the truth shall make you free. I hope I have given you some of the truth about today.

Bank Debits at Record High

Mississippi bank debits for August were up eight per cent from a year ago, according to the Business Research Station of Mississippi State University. The debits reported by 83 Mississippi banks total \$675,956,187 for August. This is the highest point ever reached by August bank debits in Mississippi, and only seven points below the all-time high registered on the station's index for the month preceding.

Drinking is the No. 1 contributory factor in single car accidents, according to a 1957 study made by the Connecticut Safety Commission. Liquor was involved in 52.7 per cent of the total cases in which cars ran off the road, and during the hours of darkness alcohol was present in three out of four fatal smashups of this type.

COLUMBUS SCOUTS TO DISTRIBUTE HANDBOOK FOR EMERGENCIES

On Saturday, October 11, a part of 40,000,000 handbooks will be distributed to families here in Columbus. These handbooks are being delivered to distribution points all over America now. Locally they will be distributed by our Cub Scouts, Boy Scouts and Explorers. Mr. Rhyne and Dr. Williams will head the distribution, upon mobilization of all the Cubs, Scouts and Explorers at Hunt High School at 9:00 A. M. Saturday.

The booklets to be distributed are called "Handbook for Emergencies". It is a handbook intended for training every American family in preparedness. When each family receives one, they will receive information for all home emergencies . . . information on first aid, make up of a family first aid kit, how to prepare for tornadoes, fires and floods, and much more.

The distribution by the Boy Scouts of America is a part of a National Good Turn sponsored by the Boy Scouts.

Drivers Licenses Expired

Some 90,000 Mississippi driver's licenses which expired September 30 have not been renewed, according to the Highway Patrol.

Public Safety Commissioner Tom Scarbrough urges motorists to check the expiration date of their license.

"You may be driving with an expired license and not know it," he warns.

The Patrol drivers license division only recently discontinued for economy purposes the sending of renewal reminders to license holders. The failure of these notices to be mailed out this expiration period is thought responsible for the slow renewals.

Approximately 115,000 licenses expired September 30. Less than 25 per cent renewals have been reported.

"Check your license," urges Com. Scarbrough. "Your license may be expired."

Report Shows Jackson Leading Nation In Business Gain

Jackson showed the greatest gain in business activity across the nation in a report carried in a nationally-circulated journal of business and finance September 15 issue. Jackson has been in the 10 top cities for the third straight month, this time with a gain of 13 per cent. Sioux Falls, S. D., and Albuquerque, N. M., followed with seven per cent each. Most of Mississippi showed continued improvement for two months.
